ColorCode System Cutting Boards

The tough task of safe food preparation is simple with the ColorCode System that takes the risk out of cross-contamination. The boards are color-coded by food group. They're non-absorbent and won't harbor food-borne bacteria. The non-skid surface won't dull knives, chip, crack, peel or warp. They're dishwasher safe and contamination can be further reduced with our matching knives. Custom cut boards are also available.

POLYETHYLENE CUTTING BOARD

ColorCode cutting boards are the ultimate defense in the prevention of cross-contamination. Exceptionally durable and essential for safe food preparation. The high-density polyethylene is dishwasher safe. Made in the U.S.A. See next page for white boards.
